

Elevare ATX supports public agencies, prime contractors, commercial facilities, and specialized project requirements across Central Texas with responsive estimating, practical field execution, and coordinated vendor and subcontractor solutions.

CORE CAPABILITIES

Prime Contracting & Project Delivery

Prime contractor for federal, state, and local work: remediation and abatement, structural steel and metal buildings, interior demolition and finish, and facility repairs, executed through licensed trade partners.

Facility & Property Services

Corrective and preventive maintenance, facility repairs, vendor coordination, and small capital improvements for agencies and property managers.

Specialty Procurement & Logistics

Equipment and container sourcing, supplier quote packages, delivery coordination, and mobilization support for government end users.

PRINCIPAL EXPERIENCE

Owner-led company with 15+ years of principal experience in heavy construction, facility maintenance, field operations, project coordination, and contractor and vendor management.

Experience is presented as principal experience and is not represented as prior Elevare ATX company past performance.

DIFFERENTIATORS

- Veteran-owned, owner-led, and Central Texas based
- Active SAM.gov registration with CAGE code, federal quote-ready
- Bonded through an established surety: bid, performance, and payment bonds available
- Local to Fort Cavazos, the Temple VA, Austin federal facilities, and FCI Bastrop
- Vetted trade-partner bench: remediation, structural steel, concrete, electrical, plumbing, and HVAC
- Low-overhead prime, subcontractor, and teaming model suited to small projects and specialty requirements
